2 Commencement

This Order commences at 4 pm on 30 June 2009 and must be published in the Gazette.

3 Calculation of insurance premium payable by employer

- (1) The premium payable by an employer for a policy of insurance is to be calculated by requiring the premium to be calculated for a period of insurance of not more than 12 months and:

- (a) if the employer is a medium or large employer for the purposes of the policy, in accordance with the following formula:

$$P = ((T \times (1 - S)) + (E \times S)) + Q + D - I + M - A$$

- (b) if the employer is a small employer for the purposes of the policy, in accordance with the following formula:

$$P = T + Q + D - I + M - A$$

where:

P is the premium for the time being payable by the employer in respect of the period of insurance to which the policy relates, being:

- (a) except as provided by paragraph (b), the initial premium so payable in accordance with this Order, or
- (b) where adjustments are required to be made to that premium by reason of the operation of this Order, the premium so payable by reason of those adjustments.

T is the basic tariff premium for the employer, calculated with respect to the period of insurance in accordance with Schedule 3.

- (a) is less than \$50,000 (or, if the period of insurance is to be less than 12 months, where the basic tariff premium less the apprentice incentive amount $[T - A]$ would be less than \$50,000 were that period of insurance to be 12 months), the experience adjusted premium $[(T \times (1 - S)) + (E \times S)]$ is not to exceed one and a half times the amount of that basic tariff premium $[1.5 \times T]$, and
 - (b) is or exceeds \$50,000 but is less than \$150,000 (or, if the period of insurance is to be less than 12 months, where the basic tariff premium less the apprentice incentive amount $[T - A]$ would be or would exceed \$50,000 but would be less than \$150,000 were that period of insurance to be 12 months), the experience adjusted premium $[(T \times (1 - S)) + (E \times S)]$ is not to exceed twice the amount of that basic tariff premium $[2 \times T]$, and

- (3) However, if the employer is a member of a group:
- (a) subclause (2) does not apply, and
 - (b) where the sum of the basic tariff premiums less the sum of apprentice incentive amounts $[T_G - A_G]$ for all the members of that group:
 - (i) is less than \$50,000 (or, if the period of insurance is to be less than 12 months, where the sum of basic tariff

premiums less the sum of apprentice incentive amounts [$T_G - A_G$] would be less than \$50,000 were that period of insurance to be 12 months), the experience adjusted premium for the employer's policy $[(T \times (1 - S)) + (E \times S)]$ is not to exceed one and a half times the amount of the employer's basic tariff premium [$1.5 \times T$], and

- (ii) is or exceeds \$50,000 but is less than \$150,000 (or, if the period of insurance is to be less than 12 months, where the sum of basic tariff premiums less the sum of apprentice incentive amounts [$T_G - A_G$] would be or would exceed \$50,000 but would be less than \$150,000 were that period of insurance to be 12 months), the experience adjusted premium for the employer's policy $[(T \times (1 - S)) + (E \times S)]$ is not to exceed twice the amount of the employer's basic tariff premium [$2 \times T$], and

where:

A_G is the sum of the sum of apprentice incentive amounts (if any) for all the members of the group calculated:

- (a) where the period of insurance to which the premium relates is 12 months—in accordance with Schedule 10 with respect to that period of insurance, or
- (b) where the period of insurance to which the premium relates is not 12 months—in accordance with Schedule 10 as if the policies to which the premiums relate had a period of insurance of 12 months.

T_G is the sum of the basic tariff premiums for all the members of the group calculated:

- (a) where the period of insurance to which the premium relates is 12 months—in accordance with Schedule 3 with respect to that period of insurance, or

-

4 Discount available for premiums paid in full

An employer is entitled to a discount of 3 percent on the initial premium payable by the employer for a policy of insurance if:

- (a) the period of insurance to which the policy relates is 12 months, and
- (b) the employer has paid the discounted amount of the premium in full by the date on which payment of the premium is due, and
- (c) the employer has not elected to pay the premium by instalments, and
- (d) the employer has notified the insurer, in accordance with the regulations, of the reasonable estimate of the wages that will be payable during the period of insurance.

Note. Clause 130 of the *Workers Compensation Regulation 2003* requires an employer to notify the insurer concerned of the matter referred to in paragraph (d).

5 Recovery of excess from employer: section 160 of Act

For the purposes of the definition of *prescribed excess amount* in section 160 (1) of the Act, the following excess amount is specified:

- (a) if the employer concerned notified the relevant insurance scheme agent of the injury that led to the weekly compensation claim of the worker within 5 days of the employer becoming aware of it—\$0,
- (b) in all other cases—the lesser of the following:
 - (i) the amount that is the current weekly wage rate of the worker as determined by section 42 of the Act,
 - (ii) \$1,654.40.

Note. Under section 160 (2) of the Act, an employer is required to repay the prescribed excess amount to the insurer under a policy of insurance in respect of each weekly compensation claim that the insurer has paid under the policy. However, if the amount that the insurer has paid in respect of any such claim is less than the prescribed excess amount, the amount the employer must repay is that lesser paid amount.

6 Late payment prescribed rates: sections 170 (8) and 172 (5) of Act

For the purposes of sections 170 (8) and 172 (5) of the Act, the *prescribed rate* is the interest rate referred to in section 22 of the *Taxation Administration Act 1996*.

Clause 7 Insurance Premiums Order 2009–2010

7 Calculation of costs of individual claims and provisional payments of compensation: clauses 137 (2) (c) (ii) (C) and 138 (2) (c) (ii) (C) of Regulation

For the purposes of clauses 137 (2) (c) (ii) (C) and 138 (2) (c) (ii) (C) of the *Workers Compensation Regulation 2003*, the amount specified is \$1,654.40.

 - (c) an award, agreement or other instrument under the law of the Commonwealth or of another State or Territory, being an award, agreement or other instrument of a similar nature to an instrument or agreement referred to in paragraph (a) or (b).

4 Continuous recording calculation method

The continuous recording calculation method requires the following details to be kept and used for calculation:

- (a) the odometer readings at the beginning and end of each business journey undertaken by the worker during a period of insurance by means of a motor vehicle provided or maintained by the worker,
- (b) the specific purpose for which each such business journey was taken,
- (c) the distance travelled by the worker during the period of insurance in the course of all such business journeys, calculated on the basis of the odometer readings referred to in paragraph (a).

5 Averaging calculation method

- (1) The averaging calculation method requires the following details to be kept and used for calculation for the first period of insurance in which a worker's employer chooses to adopt that method:
- (a) the odometer readings at the beginning and end of each business journey undertaken by the worker during the relevant 12-week period by means of a motor vehicle provided or maintained by the worker,
 - (b) the specific purpose for which each such business journey was taken,
 - (c) the distance travelled by the worker during the relevant 12-week period in the course of all such business journeys, calculated on the basis of the odometer readings referred to in paragraph (a),

Insurance Premiums Order 2009–2010

Schedule 1 Interpretation

-
- (d) the odometer readings at the beginning and end of the relevant 12-week period for each vehicle provided or maintained by the worker for the purpose of undertaking business journeys,
- (e) the distance travelled by each such vehicle during the relevant 12-week period, calculated on the basis of the odometer readings referred to in paragraph (d),
- (f) the distance travelled by the worker in the course of business journeys undertaken by means of each such vehicle during the relevant 12-week period, calculated as a percentage of the distance travelled by that vehicle during that period,
- (g) the distance travelled by the worker in the course of business journeys undertaken by means of each such vehicle during the period of insurance, calculated on the basis that the percentage for each such vehicle for the period of insurance is the same as the percentage for that vehicle for the relevant 12-week period.
- (2) After the first period of insurance in which odometer details are recorded in accordance with subclause (1), the calculation referred to in subclause (1) (g) is to be employed for the purpose of calculating the distance travelled by the worker in the course of business journeys undertaken by means of each vehicle referred to in subclause (1) during each of the next succeeding 4 periods of insurance, calculated on the basis that the percentage for each such vehicle for the period of insurance concerned is the same as the percentage for that vehicle for the relevant 12-week period.
- (3) After the first period of insurance in which odometer details are recorded in accordance with subclause (1), a worker's employer is not required to record the details referred to in that subclause for the worker for the next succeeding 4 periods of insurance unless:
- (a) the Authority serves a notice on the employer before the commencement of a period of insurance during those 4 periods directing the employer to keep the details referred to in subclause (1) for those periods, or
- (b) the employer wishes to use the recording method referred to in this clause for one or more additional motor vehicles used by the worker in any period of insurance or for any other reason.
- (4) In a situation referred to in subclause (3) (b), a worker's employer may make a new record of odometer readings for a period of insurance in accordance with subclause (1) to replace the details previously recorded for the worker. The provisions of subclause (3) then apply in relation to the new record.
- (5) A worker's employer who has adopted and employed the method of recording referred to in this clause for a worker for 4 successive periods

Insurance Premiums Order 2009–2010

Interpretation

Schedule 1

of insurance must, in the next succeeding period of insurance, make a fresh recording of the details specified in subclause (1) if the employer intends to continue to use the same method of recording for the worker.

- (6) If the odometer of a motor vehicle is replaced or recalibrated during any period for which its readings are relevant for the purposes of this clause, the odometer readings immediately before and after the replacement or recalibration are to be recorded.
- (7) For the purposes of making the calculation referred to in subclause (1) (g) for the period of insurance in which this clause commences, a worker's employer may estimate the distance travelled by a motor vehicle during any part of that period of insurance that occurs before that commencement.

6 Meaning of “relevant 12-week period”

- (1) In clause 5, *relevant 12-week period* means a continuous period of at least 12 weeks, selected by the worker's employer, throughout which a motor vehicle is provided or maintained by a worker. If the motor vehicle is provided or maintained for less than 12 weeks, the period must be the entire period for which the motor vehicle is provided or maintained.
- (2) The period may overlap the start or end of the period of insurance, so long as it includes part of the period.
- (3) If the averaging calculation method is used for 2 or more motor vehicles for the same period of insurance, the odometer readings for those motor vehicles must cover periods that are concurrent.

7 Replacing one motor vehicle with another motor vehicle

- (1) For the purposes of using the averaging calculation method, a worker's employer may nominate one motor vehicle as having replaced another motor vehicle with effect from a day specified in the nomination.
- (2) After the nomination takes effect, the replacement motor vehicle is treated as the original motor vehicle, and the original motor vehicle is treated as a different motor vehicle. An employer need not repeat for the replacement vehicle the steps already taken for the original motor vehicle.
- (3) An employer must record the nomination in writing in the period of insurance in which the nomination takes effect.
- (4) However, the Authority may allow an employer to record the nomination at a later time.

Schedule 1 Interpretation

8 Classification of employer's business

- (1) For the purposes of this Order, the classification applicable to an employer is the class in Column 2 of Table A to which the employer's business corresponds.
- (2) An employer's basic tariff premium is determined having regard to the classification applicable to the employer's business. An employer's business means the employer's business or industrial activity.
- (3) An employer may carry on a single business or more than one business at the same time.
- (4) If an employer carries on a single business, the classification applicable to the business is that which most accurately describes the entire business of the employer. The entire business includes not only the operations and activities directly involved in the conduct of the business, but also all operations and activities incidental to the conduct of the business.
- (5) If an employer carries on more than one business, so that it can be said that the employer carries on separate and distinct businesses, subclause (4) applies to each such separate and distinct business.
- (6) Generally, businesses are not separate and distinct if the operations and activities carried on in those businesses are incidental to one another.
- (7) In determining whether businesses are separate and distinct (for classification purposes) it is relevant to take the following into account:
 - (a) the nature of the operations and activities (including incidental operations and activities) respectively carried on in the businesses,
 - (b) differences in the identity of the workers respectively engaged in the businesses (and in particular of the workers engaged in the manufacturing or industrial activities and operations),
 - (c) differences in locations of the businesses, for example, differences in locations may vary from sites far removed from each other, or separate floors in a given building, or even separate parts on the one floor level of a building (the important element in relation to location is that normally separate and distinct businesses have exclusive use of the particular area in which the operations and activities of the business are carried on).

9 Determination of wages

- (1) In this Order, a reference to wages, in relation to a period of insurance under a policy issued or to be issued to an employer or in relation to a

Interpretation

Schedule 1

period of 12 months ascertained by reference to any such period of insurance, is a reference:

- (a) except as provided by paragraph (b), to a reasonable estimate of the monetary value of all wages (not including any wages to which Schedule 7 applies) payable to workers by the employer in respect of the period of insurance or the period of 12 months, as the case may be as calculated by reference to the returns, if any, furnished in accordance with the regulations by the employer to the insurer, or
 - (b) where the monetary value of those wages (not including any wages to which Schedule 7 applies) has been ascertained—to the actual value of those wages.
- (2) If at any time the employer has failed to furnish the returns in respect of any relevant period of insurance and the monetary value of the wages concerned has not been ascertained, the estimate of the monetary value of those wages is taken to be such amount as is calculated by multiplying the monetary value (or reasonable estimate) of wages for the immediately preceding equivalent period of insurance by 1.3.
- (3) For the avoidance of doubt:
- (a) in this Order, a reference to *wages payable to workers* includes wages payable to apprentices, and
 - (b) in subclause (2), the monetary value (or reasonable estimate) of wages for an employer for the immediately preceding equivalent period of insurance includes the monetary value (or reasonable estimate) of wages for the immediately preceding equivalent period of insurance paid to apprentices.

2 Exceptions

- (1) If the policy concerned relates to per capita rates in respect of some or all workers, the relevant numbers by which those rates are to be multiplied (for example, the number of boxing matches or taxi licence plates) are to be substituted for wages in respect of those workers to determine “*W_a*”, “*W_b*”... “*W_n*” in the formula in clause 1.
- (2) If the employer does not supply sufficient information to enable the business to be classified, the business is to be classified in the class with the highest percentage rate that appears to be applicable to the business. (Clause 3)

1 General

- (1) The experience premium (“E”) for an employer is to be calculated:

$$E = T \times \frac{\text{Hindsight ECCR}}{\text{ICCR}_2}$$

- (c) after the period of insurance for which the premium is to be calculated has expired (being a period that is less than 12 months) or after the policy of insurance has been cancelled (where the period of insurance covered by that policy until that cancellation was less than 12 months):

- (i) if the employer has not entered into another policy of insurance under the Act because the employer has become a Comcare employer, in accordance with the following formula:

$$E = T \times \frac{\text{Hindsight ECCR}}{\text{ICCR}_2}$$

- (ii) in any other case, in accordance with the following formula:

$$E = T \times \frac{\text{Initial ECCR}}{\text{ICCR}_1}$$

where:

$$\text{Hindsight ECCR} = \frac{C_0 + C_1 + C_2}{W_0 + W_1 + W_2}$$

ICCR₁ is the Industry Claims Cost Rate specified in Column 4 of Table B for a class applicable to the employer, being a class appearing in Column 1 of Table B opposite that rate.

C₁ and **C₂** are respectively the totals of the cost of claims for the employer in respect of the last and second last period of 12 consecutive months (or if a policy period was less than 12 months, that lesser period) that occurred before the commencement of the period of insurance (not including the cost of any claims under sections 10 (Journey claims) and 11 (Recess claims) of the Act).

Schedule 5

Comcare employer means an employer who:

- (a) is licensed under Part VIII of the *Safety, Rehabilitation and Compensation Act 1988* of the Commonwealth after a declaration of eligibility under that Part made on the basis that the employer is a corporation carrying on business in competition with a Commonwealth authority or with another corporation that was previously a Commonwealth authority, and
- (b) would otherwise be required:
 - (i) to obtain and maintain in force a policy of insurance pursuant to section 155 of the Act, or
 - (ii) to be licensed as a self-insurer.
- (2) If an employer's policy is renewed and the employer does not supply the insurer with a notice with respect to wages paid during the last period of insurance preceding that renewal (as required by clause 130 (2) of the *Workers Compensation Regulation 2003*), the insurer may, for the purpose of calculating the Initial ECCR for the renewed policy, determine the amount of "W₁" in the formula in subclause (1) (a) to be the amount determined as the sum of W_a, W_b... W_n in the calculation of the basic tariff premium for the employer in respect of the last period of insurance preceding that renewal.
- (3) If during any past period referred to in C₁, C₂, W₁ or W₂ in a formula in subclause (1) a predecessor of the employer was insured under a policy or policies:
 - (a) the cost of claims for the employer during that period includes, for the purposes of C₁ and C₂, the cost of claims for the predecessor in respect of the business acquired by the employer, and
 - (b) the wages payable to workers by the employer during that period includes, for the purposes of W₁ and W₂, the wages payable to workers by the predecessor in respect of the business acquired by the employer.
- (4) If the policy concerned relates to per capita rates, the relevant numbers by which those rates are to be multiplied (for example, the number of boxing matches or taxi licence plates) are to be substituted for wages to determine W₀, W₁ or W₂ in the applicable formula in subclause (1).
- (5) If the policy concerned relates to both per capita rates and wages, 2 separate calculations of E ("E₁" and "E₂") are to be made and E is to equal the sum of E₁ and E₂ where:
 - (a) "E₁" is calculated by using the applicable formula in subclause (1) excluding any per capita rates applicable to the employer, and

Insurance Premiums Order 2009–2010

Schedule 5 Experience premium

- (b) “E₂” is calculated by using the applicable formula in subclause (1) but substituting the relevant number by which those per capita rates are to be multiplied (for example, the number of boxing matches or taxi licence plates) for wages to determine W₀, W₁ or W₂ in that formula.
- (6) For the purposes of subclause (5), when calculating:
- (a) “E₁”, T is to be calculated by using only the non-per capita rates applicable to the employer, and
- (b) “E₂”, T is to be calculated using only the per capita rates applicable to the employer.
- (7) If the policy concerned relates to more than one class in Column 1 of Table B, then the ICCR is to be calculated as follows:
- (a) where the ICCR is to be calculated for the purposes of clause 1 (1) (a) or (c) (ii) (that is to determine an ICCR₁)—using the following formula:
- $$\frac{(W_{a_1} \times ICCR_{1a}) + (W_{b_1} \times ICCR_{1b}) + \dots (W_{n_1} \times ICCR_{1n})}{(W_{a_1} + W_{b_1} + \dots W_{n_1})}$$
- (b) where the ICCR is to be calculated for the purposes of clause 1 (1) (b) or (c) (i) (that is to determine an ICCR₂)—using the following formula:
- $$\frac{(W_{a_2} \times ICCR_{2a}) + (W_{b_2} \times ICCR_{2b}) + \dots (W_{n_2} \times ICCR_{2n})}{(W_{a_2} + W_{b_2} + \dots W_{n_2})}$$

where:

ICCR_{1a}, ICCR_{1b} ... ICCR_{1n} are each an Industry Claims Cost Rate specified in Column 4 of Table B for a class applicable to the employer, being a class appearing in Column 1 of Table B opposite that rate.

ICCR_{2a}, ICCR_{2b} ... ICCR_{2n} are:

- (a) except where paragraph (b) applies—each an Industry Claims Cost Rate specified in Column 5 of Table B for a class applicable to the employer, being a class appearing in Column 1 of Table B opposite that rate, or
- (b) if the Governor has determined, on the recommendation of the Authority and notified in the Gazette, different Industry Claims Cost Rates—each an Industry Claims Cost Rate (so determined) that corresponds to a class applicable to the employer.

W_{a₁}, W_{b₁}... W_{n₁} are each a part of the total wages payable to workers by the employer in respect of the last and second last period of 12 consecutive months that occurred before the commencement of the

period of insurance for which the premium is to be calculated, being a part of the total wages attributable to a class applicable to the employer.

W_{a_2} , W_{b_2} ... W_{n_2} are each a part of the total wages payable to workers by the employer in respect of the period of insurance for which the premium is to be calculated and the last and second last period of 12 consecutive months that occurred before the commencement of the period of insurance for which the premium is to be calculated, being a part of the total wages attributable to a class applicable to the employer.

- (8) For the purposes of subclause (7), the classifications applicable to an employer and the part of total wages payable by an employer that is attributable to any such classification are to be as determined by reference to returns, if any, furnished in accordance with the regulations by the employer to the insurer, or by other information from the employer.
- (9) If a class in the Table A of the Insurance Premiums Order that related to a past period referred to in W_1 or W_2 in a formula in subclause (1) does not appear in Table A of this Order, then the ICCR is to be calculated in accordance with subclause (7) using the relevant ICCR rates from Table B to this Order.

2 Definition

In this Schedule, *cost of claims* has the same meaning as in Division 4 of Part 20 of the *Workers Compensation Regulation 2003*.

3 Exclusion of predecessor's cost of claims

- (1) The Authority may, for the purpose of the operation of clause 1 (3) (a) in relation to the calculation of the experience premium for an employer under clause 1 (1), on application by the employer direct that the cost of an individual claim is to be excluded from the cost of claims for the predecessor as referred to in clause 1 (3) (a).
- (2) The Authority is not to direct that the cost of a claim be excluded unless satisfied that:
- (a) the employer and the predecessor are not related corporations (within the meaning of the *Corporations Act 2001* of the Commonwealth), and
 - (b) the claim was made as a direct result of the acquisition by the employer of the business of the predecessor, and
 - (c) the cost of the claim was included pursuant to clause 1 (3) in the premium calculation for the predecessor in relation to a prior period of insurance and that premium has been paid.

where:

G_a is the continuing employer’s proportionate allocation of the departing member’s cost of claims and wages and is calculated using the following formula:

Schedule 8 Input tax credit adjustment

(Clause 3)

1 General

The input tax credit adjustment (“I”) in respect of a period of insurance is to be calculated as follows:

- (a) if the employer is a medium or large employer, in accordance with the following formula:

$$I = [(T \times (1 - S)) + (E \times S) + Q - A] \times B\%$$

- (b) if the basic tariff premium less the apprentice incentive amount $[T - A]$ is less than \$50,000 (or, if the period of insurance is to be less than 12 months, where the basic tariff premium less the apprentice incentive amount $[T - A]$ would be less than \$50,000 were that period of insurance to be 12 months), and if the experience adjusted premium $[(T \times (1 - S)) + (E \times S)]$ exceeds one and a half times the value of the basic tariff premium $[T]$, the value of $[1.5 \times T]$ replaces the experience premium in the above formula. That is, where the $[1.5 \times T]$ limit applies, then:

$$I = ((1.5 \times T) + Q - A) \times B\%$$

- (c) if the basic tariff premium less the apprentice incentive amount $[T - A]$ is or exceeds \$50,000 but is less than \$150,000 (or, if the period of insurance is to be less than 12 months, where the basic tariff premium less the apprentice incentive amount $[T - A]$ would be or would exceed \$50,000 but would be less than \$150,000 were that period of insurance to be 12 months), and if the experience adjusted premium $[(T \times (1 - S)) + (E \times S)]$ exceeds twice the value of the basic tariff premium $[T]$, the value of $[2 \times T]$ replaces the experience premium in the above formula. That is, where the $[2 \times T]$ limit applies, then:

$$I = ((2 \times T) + Q - A) \times B\%$$

- (d) if the basic tariff premium less the apprentice incentive amount $[T - A]$ is or exceeds \$150,000 but is less than \$300,000 (or, if the period of insurance is to be less than 12 months, where the basic tariff premium less the apprentice incentive amount $[T - A]$ would be or would exceed \$150,000 but would be less than \$300,000 were that period of insurance to be 12 months), and if the experience adjusted premium $[(T \times (1 - S)) + (E \times S)]$ exceeds two and a half times the value of the basic tariff

- (e) if the employer is a small employer, in accordance with the following formula:

$$I = (T + Q - A) \times B\%$$

where:

2 Determination of input tax credit entitlement for the purposes of the calculation of premium

- (1) In this Schedule, a reference to the input tax credit entitlement for an employer, in relation to a period of insurance, is a reference to the employer's input tax credit entitlement notified in respect of that period in accordance with clause 134 of the *Workers Compensation Regulation 2003* by the employer to the insurer.
- (2) If at any time the employer has failed to notify the insurer of the employer's input tax credit entitlement in respect of that period in accordance with clause 134 of the *Workers Compensation Regulation 2003*, the employer's input tax credit entitlement in respect of that period is for the purposes of this Schedule taken to be 100%.

3 Input tax credit adjustment for members of groups

Despite clause 1, if the employer is a member of a group:

- (a) clause 1 (b)–(e) do not apply, and
- (b) where the sum of the basic tariff premiums less the sum of apprentice incentive amounts [$T_G - A_G$] for all the members of that group:
 - (i) is less than \$50,000 (or, if the period of insurance is to be less than 12 months, where the sum of the basic tariff premiums less the sum of apprentice incentive amounts [$T_G - A_G$] would be less than \$50,000 were that period of insurance to be 12 months), and if the experience adjusted premium $[(T \times (1 - S)) + (E \times S)]$ exceeds one and a half times the value of the basic tariff premium for the employer's policy [T], the value of $[1.5 \times T]$ replaces the experience premium in the formula in clause 1 (a). That is, where the $[1.5 \times T]$ limit applies, then:

$$I = ((1.5 \times T) + Q - A) \times B\%$$
 - (ii) is or exceeds \$50,000 but is less than \$150,000 (or, if the period of insurance is to be less than 12 months, where the sum of the basic tariff premiums less the sum of apprentice incentive amounts [$T_G - A_G$] would be or would exceed \$50,000 but would be less than \$150,000 were that period

of insurance to be 12 months), and if the experience adjusted premium $[(T \times (1 - S)) + (E \times S)]$ exceeds twice the value of the basic tariff premium for the employer's policy $[T]$, the value of $[2 \times T]$ replaces the experience premium in the formula in clause 1 (a). That is, where the $[2 \times T]$ limit applies, then:

$$I = ((2 \times T) + Q - A) \times B\%$$

- (iii) is or exceeds \$150,000 but is less than \$300,000 (or, if the period of insurance is to be less than 12 months, where the sum of the basic tariff premiums less the sum of apprentice incentive amounts $[T_G - A_G]$ would be or would exceed \$150,000 but would be less than \$300,000 were that period of insurance to be 12 months), and if the experience adjusted premium $[(T \times (1 - S)) + (E \times S)]$ exceeds two and a half times the value of the basic tariff premium for the employer's policy $[T]$, the value of $[2.5 \times T]$ replaces the experience premium in the formula in clause 1 (a). That is, where the $[2.5 \times T]$ limit applies, then:

$$I = ((2.5 \times T) + Q - A) \times B\%$$

Mine Safety Fund premium adjustment

Schedule 9

Schedule 9 Mine Safety Fund premium adjustment

(Clause 3)

1 General

The Mine Safety Fund premium adjustment (“*M*”) is to be calculated in accordance with the following formula:

$$M = (W_a + W_b + \dots W_n) \times R_{MSF}$$

where:

W_a, *W_b*... *W_n* are each a part of the total wages payable to workers by the employer in respect of the period of insurance for which the premium is to be calculated, being a part of the total wages attributable to a class appearing in Division B of Table A (that is, classes 120000 to 152000) applicable to the employer.

R_{MSF} is 0.932%.

Insurance Premiums Order 2009–2010

Schedule 10 Apprentice incentive scheme

Schedule 10 Apprentice incentive scheme

(Clause 3)

1 General

- (1) The apprentice incentive amount (“A”) for an employer is to be calculated in accordance with the following formula:

$$(Aa \times Ra) + (Ab \times Rb) + \dots (An \times Rn)$$

where:

Aa, Ab... An are each a part of the total wages payable to apprentices under apprenticeship contracts by the employer in respect of the period of insurance for which the premium is to be calculated, being a part of the total wages attributable to a class appearing in Column 2 of Table A applicable to the employer.

Ra, Rb... Rn are each a percentage rate specified in Column 4 of Table A that corresponds with a class applicable to the employer, being a class appearing in Column 2 of Table A opposite the percentage rate.

- (2) For the purposes of subclause (1), the classifications applicable to an employer and the part of total wages payable by an employer that is attributable to any such classification are to be as determined by reference to returns, if any, furnished in accordance with the regulations by the employer to the insurer, or by other information from the employer.
- (3) In this clause, *apprenticeship contract* has the same meaning as in the *Apprenticeship and Traineeship Act 2001*.

2 Exceptions

- (1) If the employer does not supply sufficient information to enable the business to be classified, the business is to be classified in the class with the highest percentage rate that appears to be applicable to the business. The business may be reclassified to a class having a lower percentage rate when sufficient information is supplied.
- (2) If the employer has not supplied a notice with respect to wages (as required by clause 130 of the *Workers Compensation Regulation 2003*) in respect of any relevant period of insurance, the apprentice incentive amount (“A”) is taken to be zero for the purposes of the calculation of the employer’s premium. The apprentice incentive amount (“A”) for an employer’s premium may be recalculated when the required notice as to wages has been supplied.

Schedule 11 Table A

(Clause 8)

NSW WorkCover Industry Classification System**Notes**

- 1 The following activities should *not* be considered as separate and distinct businesses (as referred to in clause 8 of Schedule 1):
- (a) Clerical and/or Technical and/or Computer Support Services as defined in Groups 781, 782, 783, 784, 785 and 786,
 - (b) Management Services,
 - (c) Administrative Services,
 - (d) Sales and Marketing,
 - (e) Head Office Activities,
 - (f) Warehousing associated with Manufacturing or Retailing.

These activities are *not* entitled to a separate class but should be considered incidental to the employer's other activity or activities. Consequently the wages of any such workers will attract the percentage rate of the class that is appropriate to the employer's business.

- 2 In the event that an employer carries on separate and distinct businesses (as referred to in clause 8 of Schedule 1) then workers engaged in the activities listed in clause 1 (a)–(f) are to each be allocated to one of those two or more separate and distinct businesses. Any such allocation will be on the following basis:
- (a) if such a worker is occupied wholly or predominantly in just one of the employer's separate and distinct businesses then the entire wages of the worker will attract the percentage rate of the class appropriate to that business,
 - (b) if such a worker is occupied substantially in more than one of the employer's separate and distinct businesses then the entire wages of the worker will attract the lowest percentage rate of the classes appropriate to the various business activities in which the worker is occupied. (In the event that those two or more separate and distinct businesses each have the same percentage rate then the worker's entire wages will attract the class with the lowest number).
- 3 (1) If an employer:
- (a) is a member of a group, and
 - (b) predominantly provides services referred to in Note 1 to an employer who is also a member of the group,

the premium payable by the employer is to be calculated by reference to the percentage rate of the class applicable to the second employer.

(2) However, in the case where the employer is a member of a group, and provides such services to 2 or more other employers (who are also members of that group), the premium payable by the employer is to be calculated:

- (a) by reference to the highest percentage rate of the classes applicable to the respective members, or
 - (b) if the employer is able to demonstrate that such services are predominantly provided to a particular member—by reference to the percentage rate of the class applicable to that member, or
 - (c) if the employer is able to demonstrate that such services are predominantly provided to related interstate or overseas entities—by reference to the percentage rate of the class applicable to those services.
- 4 If an employer has a business that is covered by Table A's classes 612310, 612315, 612320, 612322, 612324, 612326, 612330, 931120, 931130, 931920, 931930, or 931940 (being classes that refer to a per capita rate), the employer's basic tariff premium is to be calculated, to the extent that the business relates to those classes, on the basis of the relevant numbers by which those rates are to be multiplied (for example, the number of boxing matches or taxi licence plates) rather than on the basis of wages.

- 5 In relation to the class applicable to ministers of religion (961000) note that clauses 17 and 18 of Schedule 1 to the *Workplace Injury Management and Workers Compensation Act 1998* provide special procedures by which ministers of religion may be treated as workers for the purposes of the Act.
- 6 In the case of a labour hire business more than one class may apply. The class applicable to each category of worker hired out is the class that applies to the industry most closely associated with the occupation of the labour provided by the labour hire business.
- 7 In Table A 'Mfg' means 'Manufacturing'.
- 8 Manufacturing in Table A includes the industrial activities of assembly, installation, maintenance and repairing where these activities are not elsewhere classified.
- 9 In Table A 'nec' means 'Not Elsewhere Classified'.
- 10 The WorkCover Authority may, from time to time, issue guidelines for the application of the NSW WIC System.

Division B Mining

The scope of the Mining Division includes all employers engaged in 'mining', in exploration for minerals, and in the provision of a wide variety of services to mining and mineral exploration, as well as mining projects under development.

The term 'mining' is used in the broad sense to include the extraction of minerals occurring naturally as solids such as coal and ores, liquids such as crude petroleum, or gases such as natural gas. Extraction of minerals is undertaken by such processes as underground or open cut mining, dredging, quarrying, the operation of wells or evaporation pans, or by recovery from ore dumps or tailings, and all supplementary activities aimed at preparing the crude materials for marketing.

Activities include milling, dressing and beneficiation of ores, screening, washing and flotation. These activities are generally carried out at or near mine sites as an integral part of mining operations. Natural gas absorption, purifying and similar treatment plants are also included in this Division.

The Mining Division excludes employers engaged in refining or smelting of minerals or ores (other than the preliminary smelting of gold), or in the manufacture of such products of mineral origin as coke or cement.

Insurance Premiums Order (Retro-Paid Loss Premium Method) 2009–2010

under the

Workers Compensation Act 1987

Her Excellency the Governor, with the advice of the Executive Council, has made the following Order under the *Workers Compensation Act 1987*.

JOSEPH TRIPODI, M.P.,
Minister for Finance

Explanatory note

Section 168A of the *Workers Compensation Act 1987* provides that an insurance premiums order may fix (as an **optional alternative method**) an alternative method for calculating the premium payable by an employer who is classified under the order as a large employer (or a person who proposes to become such an employer) for a policy of insurance under that Act.

The object of this Order is to fix such an optional alternative method for calculating premiums (to be known as the Retro-Paid Loss Premium Method) in respect of policies of insurance that are to be, or have been, issued or renewed so as to take effect on or after 4 pm on 30 June 2009 and before 4 pm on 30 June 2010.

This Order also fixes or determines the **required deposit** in respect of such a policy of insurance that an employer may be required to deposit with the Nominal Insurer under section 172A of the *Workers Compensation Act 1987*.

This Order is made under sections 168, 168A and 172A of the *Workers Compensation Act 1987*.

- (4) The General Order (other than clauses 3 and 4) applies to and in respect of retro-paid loss premium policies, unless this Order provides otherwise.

5 Classification of large employers

A large employer within the meaning of the General Order is classified a large employer under this Order.

6 Retro-Paid Loss Premium Method of premium calculation

For the purposes of section 168A of the Act, the alternative method is to calculate the premium for a policy of insurance at the commencement of the period of insurance (*the deposit premium*), and then recalculate the premium at each adjustment date (*the adjusted premium*), in accordance with this Order.

7 Minimum premium

Despite any other provision of this Order, a deposit premium and an adjusted premium in respect of any policy of insurance is to be no less than \$175.

Clause 8 Insurance Premiums Order (Retro-Paid Loss Premium Method) 2009–2010

8 Calculation of required deposit: section 172A of Act

- (a) before the first adjustment date:

$$R_D = P_{\max} - P_D$$

- (b) on and from the first adjustment date:

$$R_D = P_{\max} - P$$

where:

R_D is the required deposit in respect of the period of insurance to which the policy relates.

P_{\max} is the maximum premium that is payable by the employer calculated in accordance with Schedule 1.

P_D is the deposit premium payable by the employer calculated in accordance with Schedule 1.

P is the premium payable by an employer for a policy of insurance calculated in accordance with Schedule 1.
